

K-LOVE radio is a wonderful uplifting station. Many of my friends here listen as well. We thoroughly enjoy the positive and encouraging messages they share and it's a family friendly. Nothing else will ever replace what they offer to their listening audience. We all would be lost without the benefit of this in our lives. Please do not allow the LPFM to take priority over our current FM translator. There is a huge public interest in K-LOVE and losing this from our lives would devastate large communities all over the listening area. Please consider our welfare. Thank you for your time.
